

SENIOR FRONTEND DEVELOPER

Dynamic Senior Front-End Engineer with over 12 years of experience in architecting and developing high-performance, scalable web applications. Expert in React, JavaScript, and TypeScript, with a proven track record of leading and mentoring development teams to deliver innovative and user-centric digital solutions. Passionate about driving best practices in code quality, testing, and performance optimization. Adept at collaborating with cross-functional teams to create seamless, visually stunning user interfaces. Ready to contribute strategic insights and technical expertise to revolutionize products in a fast-paced, high-growth environment.

WORK EXPERIENCE

Senior Frontend Developer | Oxolo Jul 2023 - present

- Led the design and implementation of a high-performance frontend architecture using React and TypeScript, improving application load times by 40% and boosting user engagement by 15%.
- Collaborated closely with product managers, designers, and backend engineers to deliver seamless and visually stunning user interfaces that aligned with business goals.
- Mentored and guided a team of frontend developers, fostering a culture of continuous learning and innovation, which resulted in a 30% improvement in overall team productivity.
- Drove best practices in code quality, testing (using Cypress, Jest, and React Testing Library), and performance optimization, reducing bugs in production by 30% and enhancing the user experience.

Senior Frontend Developer (Web3/Blockchain) | Rango Exchange Oct 2022 - Jun 2023

- Architected and developed complex frontend solutions using React and TypeScript, ensuring seamless integration with third-party APIs and maintaining high code quality through TDD.
- Spearheaded performance optimization initiatives, leading to a 25% reduction in page load times and a more responsive user experience.
- Collaborated with cross-functional teams to launch new features and fix critical bugs, significantly improving application stability and user satisfaction.
- Provided technical mentorship to junior developers, contributing to their growth and the overall success of the team.

Tech Lead | Mootanroo Oct 2022 - Jun 2023

- Led a team of 20 engineers in designing and developing a cutting-edge eCommerce platform, which doubled sales through optimized user journeys and improved frontend architecture.
- Architected frontend solutions using ReactJS and Redux, achieving a 30% faster load time and top-tier Google Page Insights scores.
- Played a key role in strategic planning for frontend technologies and frameworks, ensuring the team stayed ahead of industry trends.
- Mentored team members, improving their skills and aligning the team's output with best practices in frontend development.
